Dear Ms Miller and Members,

Thank you so much for the beautiful and unique "rocking airplane". I've placed it in Lea's Place where it will serve many children through the years. I know it was a joint effort which makes it all the more special. Thank you so much for caring about these children who dearly treasure your expertise in craftsmanship.

We look forward to your continued support during the holidays with your wonderful array of toys. You are a true blessing to our program!

Sincerely,

Kathy Suber
